St Andrews,  
14 Sept. 96.

Cher Compère,

It would give  
me great pleasure to  
have you as my guest  
- should you be able  
& honor the University  
by coming to the opening  
of the Marie Laboratory.  
The University would  
respond to the honor  
avec les sentiments  
le plus distingués.

Yours sincerely  
W. W. J. J. J.

GATTY MARINE LABORATORY,

ST ANDREWS. 1 Nov 97.

Mr. Charles C. Cope,

A young Zoologist  
knowsiew Harry M. Kyle,  
would like to proceed  
to Bangor - see me  
to pursue his research.  
He has been engaged  
in a study of the post-  
larval fishes (plaice),  
dab, Draperia,  
P. microcephalus & P.  
flexus - chiefly in regard  
to distribution, food &  
differences as to their  
unrecognized stages.  
He has also worked

at Arenicella.

May I ask your  
kind favour in per-  
mitting him to go to  
Bangalore - our men  
do any charge made  
at the latter estab-  
lishment?

Mr. Kye will be  
ready to forward such  
words as soon as  
his paper is ready -  
which will be soon.

With much esteem

Yours &c  
H. C. W. G. G. G.
