Dear Sir,

I am desirous of illustrating
an article of mine, in the Supplement
to the 9th Edition of the Encyclopaedia
Britannica, now being prepared for
the "Times", on "Cuttle-fish" by the
figure you have given, in vol. I of
the Archives de Zoologie Expérimentale, of
the Argonaut in life - and I write
to ask your permission to reproduce

is for that work - or it would be
better still, if you could tell me
how to obtain a cliché from the
original block from which the
illustration was printed

I am

Yours faithfully

J. F. Blake

Prof. de Lacaze Duthoir.
