

Hotel Cornaille
Rue Cornaille

19 Feb 1895.

Sir,

I have come to Paris from Edinburgh to study for some time probably about a month. I wished to go to the marine station at Porcy about which I had heard very much.

Prof. Sedes, whose card I enclose, however advised me rather to come to your laboratory here. I do not

know that I can do very
much in so short a time,
and I have considerable
difficulty with the language
as yet, but I hope to be
able to return afterwards.

I have worked chiefly
at the Tetrancheta and
am anxious to examine the
specimens (Rang's &c)
which I understand are in
the museum here. If you
can tell me about them
I shall be much obliged.

I shall be glad to
call on you any time it
may suit you

Yours obed^t serv^t
S D F Siebrist

Please do not let
me put you to any
great trouble in the matter.

Your obedt. serv^t
J. Gilchrist

Hotel Corneille

Rue Corneille

23 Feb 1895

Sir,
I am sorry that
my bad writing has given
you trouble.

I wish to attend
your lectures if they are
not already finished. I
wish also to examine the
Sectibranchiata, especially
those of Rang, which I
understand are in Paris.
