

BRITISH ASSOCIATION FOR THE ADVANCEMENT OF SCIENCE.

Meeting at Norwich, 1868.

March 1868

Sir I have the honour of
informing you that the next
Meeting of the British Associa-
-tion will be held at Norwich,
beginning on the 19th of August
next, under the Presidency of
J. S. Hooker, F.R.S. Geol. & P.S. & G.S.
of Hen.

The fact that Norwich has
never before been visited by
the Association, & its peculiar
geological features, with its
easy access from London, the
Universities, and the Continent, are
likely to combine to render the

meeting one of great interest.

I am directed by the Local Executive Committee to express a hope that you may be able to be present at the meeting, and I will endeavour to make such provision for your reception as may induce you to attend, only requesting that you will inform me at an early period whether it is your intention to be present. As soon as I hear from you, I will again communicate with you as to the means of transit whether from London, or from Warwick direct from the Continent, and also as to the private hospitality or lodgings provided for you

Should you be desirous of communicating any paper, you will be pleased to inform me of it at your early convenience.

I am, Dear Sir
Your faithful servant
J.rompton
Local Secretary,

M. Lucez Outliers.

British Association for the Advancement of Science,

22 Albemarle Street, London, W.
May, 1882.

SIR,

We are directed by the BRITISH ASSOCIATION FOR THE ADVANCEMENT OF SCIENCE to announce to you that the Fifty-second Meeting of the Association is appointed to commence at Southampton on Wednesday, the 23rd of August, 1882, under the Presidency of C. W. SIEMENS, Esq., D.C.L., LL.D., F.R.S., F.C.S., M.I.C.E., with the assistance of the Vice-Presidents and other Officers whose names are given in the subjoined list, and to express the earnest desire of the Members of the Association to be honoured by your presence on the occasion of this its second visit to Southampton.

The Officers of the Association hope to be supported on this, as on many previous occasions, by the personal assistance and written contributions of the Philosophers of other Countries. They have made special arrangements for the entertainment of these guests, and they invite you, accordingly, to partake of the hospitality which they are now in a position to offer you during the week of the Meeting. If then you will do them the honour of accepting this invitation, and will give them, at your earliest convenience (if possible by July 1), intimation of your intention to be present, they will inform you, before the commencement of the Meeting, of the apartments prepared for you.

They would also be glad to be informed whether you would prefer to be the guest of some private family at or near Southampton (if this can be arranged), or to be lodged as the guest of the Association at an hotel.

We have the honour to be,

SIR,

Your obedient Servants,

C. W. SIEMENS, *President elect.*
DOUGLAS GALTON, } *General*
F. M. BALFOUR, } *Secretaries.*
T. G. BONNEY, *Secretary.*

To Dr. H. de Lacaze Duthiers,
Paris.

President Elect.

With the Compliments of the President Elected.

British Association for the Advancement
of Science.

Soixante-Troisième Réunion

DEVANT AVOIR LIEU A NOTTINGHAM, LE 13 SEPTEMBRE, 1893.

GUILDHALL,
NOTTINGHAM.

MOSSIEUR,

Nous avons l'honneur, au nom du Comité exécutif local, de vous inviter à la réunion de l'Association Britannique pour l'Avancement des Sciences, laquelle aura lieu cette année à Nottingham, commençant mercredi, 13 Septembre, sous la présidence de MOSSIEUR J. S. BURDON SANDERSON, M.A., M.D., LL.D., D.C.L., F.R.S., F.R.S.E., F.R.C.P., Waynflete Professeur de Physiologie à l'Université d'Oxford.

Le Comité exprime le vœu que vous lui fassiez l'honneur d'être son hôte dans cette ville, et vous pouvez être assuré qu'il fera tout ce qui dépendra de lui pour vous en rendre le séjour aussi agréable que possible.

Le but que l'Association Britannique poursuit, et les résultats splendides qu'elle a obtenus dans le passé, sont trop connus des savants de tous pays pour qu'il soit nécessaire d'en faire la récapitulation. Il suffit de rappeler que si, d'une part, son but immédiat est d'encourager les études et recherches scientifiques, et de leur donner une direction systématique, l'Association, d'autre part, s'est toujours efforcée de développer des rapports personnels entre les savants de La Grande-Bretagne et ceux des pays étrangers.

Le Comité local aspire à ce que la réunion de 1893 se signale par la présence des hommes de science de toutes les parties du monde civilisé, fermement convaincu que ces rapports personnels serviront puissamment la cause de la science.

La ville de Nottingham située presque au milieu de l'Angleterre, et, par ce fait, en communication rapide avec les principaux centres et ports de la Grande-Bretagne, semble, par ces raisons, offrir tous les avantages désirables pour un point de réunion d'étrangers. Elle est salubre, bien située; possède des établissements pédagogiques tout modernes, et, en même temps, elle offre, par ses souvenirs historiques, et les traits géologiques de ses environs, ainsi que par ses manufactures, des objets d'études intéressants à tous les points de vue.

Nous serons heureux de recevoir de vous une réponse favorable, et le plus tôt possible, afin que les arrangements indispensables puissent être complétés à temps. Nous aurons beaucoup de plaisir à vous faire parvenir tous les renseignements que vous pourrez désirer quant aux routes les plus favorables, chemins de fer, etc.

Veuillez accepter,

MONSIEUR,

l'expression de nos sentiments les plus distingués.

Frank Clowes,
William H. Hecton
Arthur P. Johnson

THE LOCAL SECRETARIES,

BRITISH ASSOCIATION FOR THE ADVANCEMENT OF SCIENCE,

THE GUILDHALL,

NOTTINGHAM.

British Association for the Advancement of Science.

SIXTY-SIXTH MEETING

TO BE HELD IN LIVERPOOL, SEPTEMBER 16th to 23rd, 1896.

UNIVERSITY COLLEGE, LIVERPOOL,

February, 1896.

DEAR SIR,

We have the honour, on behalf of the Executive Committee, to invite you to the next Meeting of the British Association for the Advancement of Science, which will be held in Liverpool, under the Presidency of SIR JOSEPH LISTER, Bart., President of the Royal Society, in the week commencing Wednesday, September 16th, 1896.

The Committee will consider you to be their guest during the time of your stay in this City, and will do all in their power to render your visit a pleasant one.

The objects of the Association may be stated to be:—To give impulse and direction to Scientific inquiry, to promote intercourse between students of Science in the British Empire, and in other countries, to obtain a more general attention to the objects of Science, and to remove any disadvantages of a public kind which impede its progress.

The success of the Association depends greatly on the realisation of the second of these objects—the promotion of personal intercourse between those who are engaged in the pursuit of Science. The advantage of friendly intercourse with fellow workers in other countries is strongly felt by the members of the British Association, and the gain to Science derived from meetings of an international character is acknowledged by all.

The Local Executive Committee of the British Association in this City are desirous of making the presence of Foreign Visitors a prominent feature of the forthcoming meeting, and have reason to hope that their endeavours will be successful. Liverpool has the means of entertaining a large number of Foreign *Savants*, and can offer to them exceptional opportunities of visiting points of interest in the neighbourhood and of becoming acquainted with some of the most important branches of industry in this country. A number of excursions to places of Scientific interest will be arranged—including one, extending over several days, to the Isle of Man.

We shall be grateful to you for an early answer, in order to facilitate the arrangements which have to be made, and we shall be glad to forward to you any information concerning routes, railway communications, etc., that you may desire.

We are, DEAR SIR,

Yours faithfully,

W. A. HERDMAN,)
I. C. THOMPSON,) *Honorary*
W. E. WILLINK,) *Local Secretaries.*

Please address reply to—

Professor HERDMAN,
University College,
LIVERPOOL.
