Dear Sir

I have received your distribution  
I send you a complete set of our  
publications to Prof. Harris  
free as you desire, in return  
for the order for \$16-16 which  
I received from you today.  
It will be a matter of pleasure  
to our Council to enter your  
name on the list of subscribers  
and I hope you will find  
the works to equal your  
expectations. I have

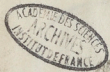

solittle time for general  
correspondence in my busy  
daily life, that I can often  
oblige to confine myself  
to mere business details  
when I should otherwise  
gladly avail myself of  
introductions to distinguished  
men of science for further &  
more interesting communications,

Yours very truly  
Edwin Suckester

Received of Mr. Lacaze Dubouché  
the sum of £16. 16 being  
his subscription to the Recy  
Society for the years 1844 to  
1859. inclusive  
July 5<sup>th</sup> 1859.

Dear Sir

In reply to your application  
respecting the works of our  
Society, I beg to inform you that  
we have now some difficulty  
in supplying all the books from  
the first year, though we can  
generally buy them in to  
make up a complete set for a  
new subscriber. This we should  
be happy to do for you, but it is  
one of our Rules that the  
subscriptions be paid before

the works are sent out. You  
can however subscribe for any  
of the later years first I have  
those volumes sent, and these  
wait for the first three or four  
years books until it is convenient  
to you. If you pay the fifteen  
guineas now due, or any  
part of it I think any French  
Banker would transmit it to  
my account at Messrs. Drummond's  
Charing & London.

Enclose a Prospectus in order  
that you may see what you  
would have for each year's  
guinea. and I shall be

happy to hear from you again  
as soon as you decide -

Instruct me also how to send  
the books you desire

I Believe me to be my dear Sir,

Faithfully Yours

Thomas Lee Rector.
